My online learning experience as a student is not so good. I only like how I don't have to wake up at 6 every day. What I don't like about it is that for me it's confusing when a teacher gives us work mostly since it's easier for me to do work with instructions that the teacher gives. **Being in a physical classroom makes me only focus on my work, but online learning makes it harder to focus because I have to also focus on household stuff, and it throws me off.** I would not want to do online learning in the future because it is hard for me to concentrate on my work only.
